# CHERRY UM 6.0 ADVANCED

USB microphone with shock mount for streaming and office use

Models may vary from the image shown

With its high-quality workmanship and appealing look, the CHERRY UM 6.0 ADVANCED is truly eye-catching in any gaming setup or office. The three-legged stand of the USB microphone is made entirely of metal and thus provides a firm and stable platform at all times.

The integrated shock mount function ensures clear sound: Un-wanted vibrations that can be caused by the desk wobbling or when typing on a keyboard are perfectly insulated by specially-designed rubber bands, as the microphone is completely decoupled from the metal stand.

Benefit from impressive sound and detailed audio during streaming, video calls in the office or gaming: The CHERRY UM 6.0 ADVANCED USB microphone offers two different polar patterns. This allows you to switch between cardioid and omnidirectional modes at the touch of a button. In omni mode, the sound is no longer only captured from the front, but from all sides of the mic. This means that the microphone is particularly suitable for video conferences as well as podcasts with several people. A sampling rate of 96 KHz and 24 bit ensures clear and distinct audio recordings.

Furthermore, the USB mic scores highly with a practical gain control on the front, which can be used to adjust the sensitivity of the mic itself. A higher microphone sensitivity is advantageous, for example, if you want to record sounds that are quieter and/or further away.

The CHERRY UM 6.0 ADVANCED has both a headphone jack and a useful push-to-mute function that allows you to mute the microphone with just one touch. Not only does this help you avoid accidental recordings, but it also makes it easier to step back from the action, especially during a video conference with several people, without disturbing the participants.

The CHERRY UM 6.0 ADVANCED connects to a PC, laptop, Mac, or console in seconds via the included USB cable and is ready to record immediately. An added bonus: The packaging includes no plastic at all. Unpack, plug in, and record!

## FUNCTION AND PERFORMANCE

- → High-quality design in matte silver
- → Three-legged design stand made of solid metal with integrated vibration damper
- → Two different polar patterns for detailed voice recordings: cardioid and omnidirectional
- → Gain control for adjusting microphone sensitivity
- → Compatible with PC, Mac, PS4 and PS5 (Plug&Play via USB cable)
- → Convenient push-to-mute function
- → Headphone jack with integrated volume control in CHERRY design
- → Shock-mount function for first-class sound quality without unwanted background noise or vibrations
