Kraftform Kompakt 900 Set 1, 19 pieces

Kraftform Kompakt 900 impact screwdriver

EAN:	4013288222176	**Size:**	195x85x65 mm
Part number:	05018110001	**Weight:**	748 g
Article number:	Kraftform Kompakt 900 Set 1	**Country of origin:**	CZ
		Customs tariff number:	82079030

- Compact and robust interchangeable blade screwdriver set with manually activatable impact wrench function
- For loosening stubborn screw connections
- Hammer blow impulse is converted into a rotary movement with a loosening torque of approx. 25 Nm - without loss via a pound-thru blade
- Reversible functions: impact wrench and screwdriver
- Specially hardened and extra tough bits with 1/4" external hexagon drive
- Combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade

The impact screwdriver 921 combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade. The impact wrench function offers a loosening moment of up to 25 Nm. The robust bit holder allows the mounting of different specialised bits for various screw profiles. The pound-thru blade ensures complete power transmission (zero loss). The impact wrench function and screwdriver function can be switched as required.

The 921 impact screwdriver combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade.

Combination tool

The 921 impact screwdriver combines the advantages of interchangeable blade sets, chiseldrivers and manual impact wrenches.

Impact wrench function can be switched on and off

The manual impact wrench function can be switched on if required to loosen even stubborn screw connections.

Loosening moment

With the impact wrench function switched on, the hammer blow impulse is converted into a rotary movement with a loosening moment of up to 25 Nm. Power transmission without loss via a pound-thru blade.

Higher power transmission when the impact wrench function is deactivated

When the impact wrench function is deactivated, the wrench aid can be operated with a size 13 spanner for greater power transmission.

Handle/interchangeable blade system

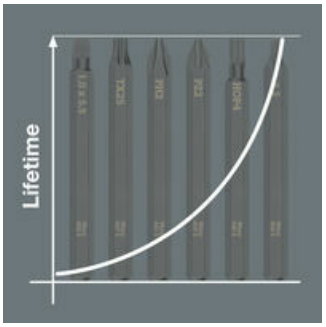

The robust bit mounting is suitable for bits with 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3. The interchangeable blade system means low weight, reduced space requirement and high flexibility for the user.

For use with 921 impact screwdriver

The Wera impact screwdriver bits are particularly suitable for use with the Wera 921 impact screwdriver.

Long life span

The extra tough bits stand out with their particularly long service life. Premature breakage is prevented.
