KĀUDEN™

Item code – POD56V2
GOP Box - Two Outlet 56mm Height , Dual Grommet option

- Allowing either of two size grommet hole , 20mm or 25mm
- Reversible lid to blank off whichever grommet hole is not required
- 56 mm height , 1.2mm Steel Construction
- Two 6C-25x38mm outlets in a vertical orientation
- Keyed gland entry slot

Also known as a GOP Box , Grid Outlet Position or POD box it is ideal for bringing data to the desk from a sub floor environment, normally using flexible conduit and floor access grommets.

GOP boxes are designed to accommodate 6C modules which are 25x38mm in size and commonly known as floor box modules. The apertures are all placed in a Vertical orientation to allow easier access for cables.

The big advantage of this design is that the box itself allows either of two different grommet holes to save carrying different types
