Simplifies your work: The ball end facilitates access to screws and allows you to work at an angle of up to 25°.
Increases your efficiency: Wiha MagicRing® holding feature holds all hex screws in place without a magnet.
Makes handling easier: Always the correct key when you need it.
Lowers your costs: Highly durable thanks to high-quality, chrome-plated L-key surface to prevent corrosion.
Saves time: Ensures order: removal and targeted insertion in the holder is child's play.
Product dimensions: 231 x 35 x 73 mm (LxWxD)
Application: Ideal for tightening or loosening all hex screws in hard-to-reach places, removing standard countersunk screws and inserting and screwing into horizontal, inclined or deep tapped blind holes.
Supplementary information: MagicRing® from size 3 mm.
Quick removal: turn the L-key and pull it out
High-quality chrome-plated surface
Perfect for confined spaces thanks to ball end
Nonmagnetic holding feature
It's a common experience. It is not easy to remove individual keys from many L-key holders or place them back in the holder again. With Wiha ErgoStar, you can now say goodbye to such problems as it eliminates the bother in an ingenious way. Turning one L-key in the holder makes all the other keys turn to the side at the same angle, allowing you to remove the key you need quickly and comfortably. A clamping mechanism in the holder makes sure that the keys cannot fall out, regardless of whether the holder is open or closed. Thanks to the MagicRing® holding feature (from size 3) with its spring steel ring, the L-keys hold all standard hex screws firmly in any position perfectly without any magnets. The hexagonal ball end allows effortless screwing at an angle of up to 25°. The L-key set contains nine hex L-keys in standard sizes and can be hung up directly at the workplace using the suspension bracket on the holder. The matt chrome-plated chrome vanadium steel guarantees robustness and a long service life.
Based on ISO 2936L.
Content:

- 1x L-keys Hexagonal ball end matt chrome-plated 1.5 mm x 91 mm (01392)
