Soldering Station

RoHS Compliant

Description

The Compact 70W Soldering Station is a versatile and efficient tool designed for both professional and hobbyist soldering applications. This all-in-one unit integrates an iron stand, cleaning ball, and helping hand hole, providing a seamless and clutter-free workspace. With its high-power 70W output, the station ensures rapid heating and precise temperature control, making it ideal for electronics repair, DIY projects, and industrial soldering tasks.

Features

- High-Power 70W Output for Fast Heating, ensuring quick heat-up times and stable temperature control.
- All-in-One Compact Design,Ideal for small workbenches, electronics repair stations, and mobile workspace.
- Supports adjustable temperature settings, allowing users to work with different soldering materials and applications.
- Compatible with a wide range of soldering tips for different tasks.
- Auto Standby & Sleep Mode for Safety & Energy Efficiency.

Specification

Power	: 70W
Input voltage	: 230V AC
Temperature range	: +200°C to +500°C (392°F to 932°F)
Net weight	: 495g
