Water-Tight Hand-Held Enclosures *1553W Series*

IP 65 Protection, Soft Sides

RoHS

Key Features:

- Ergonomically designed for hand-held comfort.
- Designed to meet IP65.
- Uses a one piece silicone gasket (installed). Enclosure utilizes tongue & groove construction - molded into the top & bottom halves.
- Choice of three sizes - in two colors.
- Molded in flame retardant - ABS plastic (FRABS) - UV stabilized. With a grey overmold, soft plastic grip.
- Top cover is recessed for membrane display or keypad.
- P.C. board standoffs are molded into both the top & bottom of the enclosure (see drawings or photos for more details). Standoff screws (M2) not included.
- Front panel is an integral part of the top half of the enclosure.
- Choice of two enclosure colors, light grey or black - soft side "grip" plastic color is grey.
- Enclosure is secured with black Philips, stainless steel, machine screws, threaded into integral brass bushings. Perfect for applications when repetitive assembly and disassembly are required.
- Assembly hardware included - for replacement part numbers - see individual drawings.
- 100-pack of PC board screws, part number **1553WTS100**
- Replacement assembly screws for sizes "B" and "D", part number **SC1553WB100BK** (100-pack, black stainless steel)
- Replacement assembly screws for sizes "C", part number **SC1553WC100BK** (100-pack, black stainless steel)

- For similar enclosures designed for general purpose applications, including more size and colors options, try series **1553**
