4.3" Digital Wireless Rearview System (Carton Qty: 12):

Stock Code: SWRC43

Each
This wireless reversing camera kit is designed to help drivers reverse their vehicle into tight spots. This kit comes with a waterproof camera that wirelessly transmits live footage directly onto the 4.3-inch LCD monitor when the vehicle is set to reverse.

The 4.3-inch monitor features the option of displaying reverse parking guidelines and you can also adjust the screen’s brightness and orientation to your personal preference.

The LCD monitor comes with a suction mount for mounting to either your windscreen or dashboard and the monitor is powered by the vehicle’s 12V power socket. As for the waterproof camera, this is attached to the vehicle’s rear bumper and is powered via the vehicle’s reverse lights.

Please note: A hole will need to be drilled to thread the waterproof camera’s wiring through the vehicle’s reverse lights.

* Ideal for hatchbacks, SUVs, small motorhomes and vans
* Waterproof camera: suitable for use in all kinds of weather conditions
* 4.3-inch LCD monitor with suction mount
* Supplied with mounting brackets, screws and adhesive pads
* Instructions provided
